DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Applicant Arguments/Remarks Made in an Amendment, filed 08/31/2009, with respect to claims 1-20 and new claim 21-23 have been fully considered and are persuasive. The current application is in condition for allowance.

Allowable Subject Matter

2. Claims 1-23 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

Claims 1, 9 and 17 of the current application teach similar subject matter of El-Gazzar et al. (US Patent 7,184,160). However, claims 1, 9 and 17 are allowed for the reasons pointed out in the applicant's remarks (Page 8-10 under III. REMARKS, filed on 08/31/2009) and further pointed out in the applicant's remarks (Page 8-10 under III. REMARKS, filed on 08/13/2008). Each independent claim identifies the uniquely distinct feature of determining spam fax based upon images. Each independent claim identifies the uniquely distinct feature by stating "comparing a junk fax image stored in a junk fax database to an incoming facsimile image, *wherein the junk fax image includes at least a portion of an analyzed facsimile image distinct from the incoming facsimile image and likely to appear in another incoming facsimile image, and wherein the comparing includes using at least one of optical character recognition or magnetic*

character recognition to determine whether the junk fax image matches at least a portion of the incoming facsimile image;

disposing of the incoming facsimile image in the case that the junk fax image matches at least a portion of the incoming facsimile image...”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
